

Who We Are, Who We Serve

The Intrepid Fallen Heroes Fund is a non-profit organization that provides support to United States military personnel wounded in service to our nation, and their families.

- Organized in 2000, the Fund was established as an independent not-for-profit organization in 2003.
- Since its inception, the Fund has provided almost \$150 million in support for families of U.S. military personnel lost in service or severely wounded and veterans.
- The Fund relies solely on public donations with 100% of contributions applied directly to Fund projects. Nothing is deducted for administrative expenses.

Our Accomplishments and Goals

Family Support (2000 – 2005) The Fund provided close to \$20 million to families of U.S. and British military personnel lost in performance of their duties.

The Center for the Intrepid (January 2007) To serve military personnel catastrophically wounded in operations in Iraq and Afghanistan, a \$55 million state-of-the-art physical rehabilitation center was opened at Brooke Army Medical Center in San Antonio, Texas.

National Intrepid Center of Excellence or NICoE (June 2010) A 72,000-square-foot facility for the treatment of traumatic brain injury (TBI) and post-traumatic stress (PTS) was opened at Walter Reed National Military Medical Center in Bethesda, Maryland.

NICoE Satellite Centers (Current Project) Efforts are now focused on the design and construction of multiple centers which will enable military personnel to receive state-of-the-art treatment for TBI and PTS in connection with the main NICoE Center in Maryland. Two centers are now open and two more are under construction; funds are needed to build up to five additional centers.
